Please support Frog Ferry

To: Rep.DanRayfield@oregonlegislature.gov

May 9, 2019

Dear Representative Rayfield,

Please support the visionary passenger ferry service project work of Friends of Frog Ferry, so we can learn about the potential to bring a new mode of transit to the Portland region, to help improve our environment, connect communities and build our city's resiliency. Years ago Portland made the decision to bring MAX to our city. At the time there was controversy over the disruption that the building of the line would create. As it turned out we, as a city, were just in time to get our mass transit in place. We need to stay creative and explore other means of moving people.

Sincerely,
Diane Boly
