Good morning

We are writing in support of establishing a ferry service from Vancouver to Portland. It makes sense to use another means of transporting people to the core area as the freeway system appears to be at capacity and with bottle necks at I5 and 405, as well as I5 and 84, with no apparent fix, the problem will only get worse . I'm sure there would be support from the community given that the commute time will be a known duration unlike the freeway where it can be 30 minutes or one hour and thirty minutes. Given the growth of the area and lack of ability to upgrade the road system it seems a logical addition to our current and future transportation needs at a price point far less than light rail or acquiring land necessary for freeway widening. We urge you to support this new concept.
