Dear Senator Courtney,

Please support the passenger ferry service project work of Friends of Frog Ferry, so we can learn about the potential to bring a new mode of transit to the Portland region, help improve our environment, connect communities and build our city's resiliency.

We can't sustain a "this is how we've always done it" approach, given the demands of our transportation infrastructure. Your customers want and will support this opportunity and are asking for your commitment to it. Thank you.

Sincerely
